

# TRIMTAF

## TRIMMABLE BACKING - ZIRCO-CERAMIC DISCS

Nothing is more versatile than TRIMTAF, with its greater overhang of the flaps and a trimmable backing, coupled with TAF premium zirconium ceramic cloth. With many choices in the industry today, look no further.

The special design of this flap disc is specifically manufactured to allow for optimal wearing out of the cloth, permitting the user to always work with fresh grains which extends the life of the disc. In addition, thanks to the engineered configuration of the flaps, a very efficient grinding on intricate surfaces is also achievable.

COOL GRINDING	CONTAMINATION FREE	MEDIUM WORKING PRESSURE	FAST STOCK REMOVAL	BACKING FLEXIBILITY	TRIMMABLE

SUITABILITY			
CARBON STEEL	STAINLESS STEEL	EXOTIC METALS	ALUMINUM

## ZIRCO-CERAMIC DISCS

# FAST STOCK REMOVAL + COOL GRINDING

TRIMMABLE BACKING | ALWAYS WORK WITH FRESH GRAINS

CARBON STEEL | STAINLESS STEEL | EXOTIC METALS | ALUMINUM

# TRIMTAF - Trimmable

## HIGH-TECH ZIRCO-CERAMIC GRAIN FAST STOCK REMOVAL | GUARANTEED COOL-CUTS!

TRIMTAF's flexibility and vibration reduction mirrors that of a plastic backing flap disc and its hi-tech cloth with top size coat provides fast stock removal and always guaranteed cool-cuts. (< 0,1% Fe, S, Cl).
