

BULLARD ABRASIVES®

Our 1/8" Type 27 pipeline wheels are specifically designed to withstand the pressures of off-hand cutting applications.

Whether you are light grinding, cleaning out the root pass, or weld and flame cut grinding, our wheels will provide a long life, fast stock removal with maximum safety.

Combination light grinding and cut-off depressed center wheels provide versatility to perform cutting and burr removal or profiling of the work piece with a single wheel.

BULLARD ABRASIVES

surfaces be warned...

MAX FORCE+ pipeline, light grinding and cut-off wheels utilize the latest ceramic abrasive technology for maximum service life with cool and rapid material removal. Best performance wheel made of premium quality ceramic abrasive grain.

MAX FORCE combination pipeline, light grinding and cutting wheels are the professional's choice for major pipe welding applications. One wheel does it all - bevel, root pass and finish. This is a rugged wheel that maintains a nicely profiled outer edge for consistent grinding of weld bead between pipe sections. Great operator control with smooth cutting action is the result of the exceptional wheel balance achieved through our intense quality control.

HIGH ENERGY When you need versatility to cut and grind on various types of materials, our High Energy TA30S wheels are a great option. This "go anywhere, do anything" formulation tackles any job quickly with good life expectancy. Well-suited for all fabrication applications involving mild steel.

LIGHTNING pipeline, light grinding and cutting wheels provide great value for applications where "wheel cost" is a primary concern. Made of aluminum oxide, these wheels work well on nearly all metals and give performance equal or better than the top-tier products offered by other companies. This is a great value for your abrasive dollar.
